

Case Study

St Helens, Liverpool

Product type:
Commercial Bridge

Term:
18 months

Property:
Purchase of an additional property to expand current garage

Exit:
Refinance

Overview:

Black & White Bridging has facilitated the ambitious expansion of Stone Tyres with £555,000 loan. The funding has enabled Stone Tyres, the highest-rated garage tyre in the UK, to purchase a new property in St Helens, where the company will open an MOT and servicing centre to complement its existing tyre repair and replacement services.

The loan underscores our dedication to supporting UK businesses in their growth efforts. Stone Tyres will utilise the funds to meet the rising demand for reliable MOT and servicing options in the local community and create ten new skilled jobs for the St Helens area.

“Black & White Bridging has been fantastic in helping us bring our vision to life. We’re excited to add MOT and servicing to our offerings and grow our impact in the community. Their teams expertise and support were invaluable as we navigated this purchase. With St Helens undergoing regeneration, this investment allows us to expand our business and create new job opportunities right here in the local area.
John Stone, Director of Stone Tyres”
